true that a wildlife garden has to be large and in the countryside Obviously the bigger the garden the more animals it will attract, but a tiny town garden or even a window box filled with the right plants can be useful! The best way to encourage wild animals into your particular garden is to provide them with the important things that they

#### **School Wildlife Gardens - Royal Borough of Kensington and ...**

Thus, school wildlife gardens do not have to be large at all. If your school does not have the space to have a wildlife garden, then look at the smaller areas of your school, such as grass verges or flowerbeds. These can be planted with wild flowers to become a mini-meadow, or with herbs and nettles that attract butterflies. These
